Statistica

Monday, June 11

9:00 | 10:00 Auditorium Tafuri
Plenary session - With Great Power Comes Great Responsibility: Multivariate Permutation Tests and their Numerical Implementation Fortunato Pesarin & Philip B. Stark

10:00 | 11:00 Auditorium Tafuri
Special invited session - On a Theory of Distribution-Free Tests: a New Approach Estate Khmaladze

10:00 | 11:00 Room Ravello
CS-01 - Rank data

10:00 | 11:00 Room Furore
CS-02 - Permutation tests for experimental and observational studies

10:00 | 11:00 Room Positano
CS-03 - Survival analysis

10:00 | 11:00 Room Procida
CS-04 - Nonparametric inference and estimation I

11:00 | 11:30
Coffee break

11:30 | 13:30 Room Vietri
IS-01 - Survival analysis Organizer: Ingrid Van Keilegom

11:30 | 13:30 Room Ravello
IS-02 - New directions in survival analysis and spatial inference Organizers: Sophie Dabo-Niang & Akim Adekpedjou

11:30 | 13:30 Room Furore
IS-03 - Permutation tests for functional and object data Organizer: Simone Vantini

11:30 | 13:30 Room Positano
IS-04 - Modern Bayesian non-parametric methods for biomedical studies - Organizer: Debajyoti Sinha

11:30 | 13:30 Room Procida
IS - 05 - Advances of statistical inference in high dimensional data with complex structures Organizer: Wen Zhou

13:30 | 15:00
Lunch

15:00 | 16:00 Auditorium Tafuri
Special invited session - Norm estimation in sparse linear regression with various assumptions on noise and design matrix Alexandre Tsybakov & Olivier Collier

15:00 | 16:00 Room Ravello
CS-05 - Nonparametric test and modelling I

15:00 | 16:00 Room Furore
CS-06 - Density estimation

15:00 | 16:00 Room Positano
CS-07 - Inference in high dimensions

15:00 | 16:00 Room Procida
CS-08 - Count Data

16:00 | 16:30
Coffee Break

16:30 | 18:30 Room Vietri
IS-06 - Recent advances in complex data analysis Organizer: Juan Romo

16:30 | 18:30 Room Ravello
IS-07 - Testing in non and semiparametric models Organizer: Pascal Lavergne

16:30 | 18:30 Room Furore
IS-08 - Nonparametric methods for censored or truncated data Organizer: Somnath Datta

16:30 | 18:30 Room Positano
IS-09 - Non parametric and statistical learning challenges for big data Organizer: Patrice Bertail

16:30 | 18:30 Room Maiori
IS-10 - New developments in multivariate inference Organizer: Arne Bathke

16:30 | 18:30 Room Amalfi
IS-11 - Statistical inference for high-dimensional and functional time series Organizer: Holger Dette

16:30 | 18:30 Room Procida
IS-12 - Recent advances in non-stationary processes Organizer: Anna Dudek

18:30 | 19:30 Foyer Minori
Poster session

20:00 | 22:00 Grand Hotel Salerno - Roof Terrace
Welcome reception

Tuesday, June 12

8:30 | 10:30 Room Vietri
IS-13 - Computer-intensive methods and time series Organizer: Dimitris Politis

8:30 | 10:30 Room Ravello
IS-14 - New directions in nonparametric methods for modern-day problems Organizer: Debajyoti Sinha

8:30 | 10:30 Room Furore
IS-15 - High-dimensional matrix estimation: thresholding, shrinkage and random matrix theory Organizer: Matan Gavish

8:30 | 10:30 Room Positano
IS-16 - Measurement error problems Organizer: Ingrid Van Keilegom

8:30 | 10:30 Room Amalfi
IS-17 - Functional data analysis I Organizer: Alicia Nieto Reyes

8:30 | 10:30 Room Procida
IS-18 - Likelihood-free methods of inference Organizer: Laura Ventura

10:30 | 11:00
Coffee break

11:00 | 12:00 Auditorium Tafuri
Plenary session - Asymptotic behaviour of credible regions – the adaptive case Judith Rousseau

12:00 | 13:00 Auditorium Tafuri
Special invited session - Nonparametric first-order analysis of spatial and spatio-temporal point processes with applications Wenceslao González Manteiga

12:00 | 13:00 Room Ravello
CS-09 - Network data

12:00 | 13:00 Room Furore
CS-10 - Smoothing techniques I

12:00 | 13:00 Room Positano
CS-11 - Advances in permutation testing

12:00 | 13:00 Room Procida
CS-12 - Imperfectly observed data I

13:00 | 14:30
Lunch

14:30 | 16:30 Room Vietri
IS-19 - Nonparametrics for networks, event counting and functional data Organizer: Enno Mammen

14:30 | 16:30 Room Ravello
IS-20 - Statistical inference for complex data structures Organizer: Soumendra Lahiri

14:30 | 16:30 Room Furore
IS-21 - Bayes in high dimension from frequentist perspective Organizer: Subhashis Ghoshal

14:30 | 16:30 Room Positano
IS-22 - Modern nonparametric and ranking methods Organizer: Philip Yu

14:30 | 16:30 Room Maiori
IS-23 - Goodness-of-fit methods and related problems I Organizer: Simos Meintanis

14:30 | 16:30 Room Amalfi
IS-24 - Nonparametric analysis of clusters of extremes and its application Organizer: Natalia Markovich

14:30 | 16:30 Room Procida
IS-25 - New directions for nonparametric methods in data science Organizer: Tanya Garcia

16:30 | 17:00
Coffee Break

17:00 | 18:00 Auditorium Tafuri
Special invited session - Functional Boxplots for Multivariate Curves Marc G. Genton

17:00 | 18:00 Room Ravello
CS-13 - Nonparametric inference and estimation II

17:00 | 18:00 Room Furore
CS-14 - Statistical learning

17:00 | 18:00 Room Positano
CS-15 - Statistical algorithms for big data

18:00 | 19:30 Room Vietri
IS-26 - High-dimensional autocovariance matrix estimation Organizer: Tommaso Proietti

18:00 | 19:30 Room Ravello
IS-27 - Minimax and adaptive inference Organizer: Alexandre Tsybakov

18:00 | 19:30 Room Furore
IS-28 - Nonparametrics in finance Organizer: Stefan Sperlich

18:00 | 19:30 Room Positano
IS-29 - Goodness-of-fit methods and related problems II Organizer: Simos Meintanis

Wednesday, June 13

8:30 | 10:30 Room Vietri
IS-30 - Recent advances in non-standard problems including shape-constrained inference and mixture models Organizer: Moulinath Banerjee

8:30 | 10:30 Room Ravello
IS-31 - Recent developments in dependence metrics and their applications Organizer: Shubhadeep Chakraborty

8:30 | 10:30 Room Furore
IS-32 - Challenging problems in modern nonparametric statistics Organizer: Lan Wang

8:30 | 10:30 Room Positano
IS-33 - Recent advances in inference and testing for structural change in time series models Organizer: Hira Koul

8:30 | 10:30 Room Maiori
IS-34 - Recent advances in functional data analysis Organizers: Anirvan Chakraborty & Anil K. Ghosh

8:30 | 10:30 Room Amalfi
IS-35 - Modern challenges in multivariate and spatial extremes Organizer: Raphael Huser

8:30 | 10:30 Room Procida
IS-36 - Recent advances for high-dimensional, complex data Organizer: Makoto Aoshima

10:30 | 11:00
Coffee break

11:00 | 12:00 Auditorium Tafuri
Special invited session - Intercept Estimation in (Non)-Additive Semiparametric Selection Models Valentina Corradi

11:00 | 12:00 Room Ravello
CS-16 - Regression models

11:00 | 12:00 Room Furore
CS-17 - Smoothing techniques I

11:00 | 12:00 Room Positano
CS-18 - Censored data

11:00 | 12:00 Room Procida
CS-19 - Inference for large scale problems

12:00 | 14:00 Room Vietri
IS-37 - Graph based statistical methods for high dimensional data Organizers: Anil Ghosh & Subhadeep Mukhopadhyay

12:00 | 14:00 Room Ravello
IS-38 - Nonparametric and semiparametric test and model adequacy in high dimensional data Organizers: Haiyan Wang & Jiguo Cao

12:00 | 14:00 Room Furore
IS-39 - Semiparametric inference Organizers: Ursula Müller & Valentin Patilea

12:00 | 14:00 Room Positano
IS-40 - Estimation methods in time series: frequency domain and multivariate analysis Organizer: Alessandra Luati

12:00 | 14:00 Room Amalfi
IS-41 - Advances in object data analysis I Organizer: Vic Patrangenaru

12:00 | 14:00 Room Procida
IS-42 - Recent advances in nonparametric survival analysis Organizer: Arnold Janssen

Thursday, June 14

8:30 | 10:30 Room Vietri
IS-43 - Functional data analysis II Organizer: Aurore Delaigle

8:30 | 10:30 Room Ravello
IS-44 - Locally stationary processes and multivariate time series Organizers: Wilfredo Palma & Giovanni Motta

8:30 | 10:30 Room Furore
IS-45 - New trends and advances in Bayesian nonparametrics Organizer: Antonio Lijoi

8:30 | 10:30 Room Positano
IS-46 - Inference for high-dimensional matrix and network data Organizer: Marianna Pensky

8:30 | 10:30 Room Maiori
IS-47 - Advances in object data analysis II Organizer: Vic Patrangenaru

8:30 | 10:30 Room Amalfi
IS-48 - Algebraic methods and nonparametric statistics Organizers: Roberto Fontana & Fabio Rapallo

8:30 | 10:30 Room Procida
IS-49 - Recent advances in exact inference Organizer: Pralay Senchaudhuri

10:30 | 11:00
Coffee break

11:00 | 12:00 Auditorium Tafuri
Plenary session - Prediction with Confidence – a General Framework for Predictive Inference Regina Y. Liu

12:00 | 13:00 Auditorium Tafuri
Special invited session - Information Matrices and Group Structures in Sufficient Dimension Reduction Francesca Chiaromonte

12:00 | 13:00 Room Ravello
CS-20 - Imperfectly observed data II

12:00 | 13:00 Room Furore
CS-21 - Nonparametric inference and estimation for correlated data

12:00 | 13:00 Room Positano
CS-22 - Large data classification

12:00 | 13:00 Room Procida
CS-23 - Functional data I

13:00 | 14:30
Lunch

14:30 | 16:30 Room Vietri
IS-50 - Graphs and trees in object oriented data analysis Organizer: James Stephen Marron

14:30 | 16:30 Room Ravello
IS-51 - High dimensional statistical inference Organizers: Francesco Giordano & Maria Lucia Parrella

14:30 | 16:30 Room Furore
IS-52 - Nonparametric data science Organizer: Subhadeep Mukhopadhyay

14:30 | 16:30 Room Positano
IS-53 - Model averaging and related topics Organizer: Jeffrey Racine

14:30 | 16:30 Room Maiori
IS-54 - New challenges and solutions to complex data problems with applications Organizer: Ronghui Lily Xu

14:30 | 16:30 Room Amalfi
IS-55 - Nonparametric models for spatio-temporal data Organizer: Stefano Castruccio

14:30 | 16:30 Room Procida
IS-56 - Nonparametric conditional modeling: copulas, kernels, local Gauss, networks Organizer: Dag Bjarne Tjøstheim

16:30 | 17:00
Coffee Break

17:00 | 18:00 Auditorium Tafuri
Special invited session - Statistical Inference for High Dimensional Demand Models Yuichi Kitamura

17:00 | 18:00 Room Ravello
CS-24 - Nonparametric test and modelling II

17:00 | 18:00 Room Furore
CS-25 - Functional data II

17:00 | 18:00 Room Positano
CS-26 - Smoothing techniques II

18:00 | 19:30 Auditorium Tafuri
ISNPS MEETING

20:00 | 24:00 Hotel Raito, Vietri sul Mare (SA)
Social Dinner

Friday, June 15

8:30 | 10:30 Room Vietri
IS-57 - Bootstrap for time series Organizers: Efsthios Paparoditis & Jens-Peter Kreiss

8:30 | 10:30 Room Ravello
IS-58 - Directional data Organizer: Marco Di Marzio

8:30 | 10:30 Room Furore
IS-59 - Statistical problems involving Big Data Organizer: George Michailidis

8:30 | 10:30 Room Positano
IS-60 - Advances in financial modelling Organizer: Genaro Sucarrat

8:30 | 10:30 Room Maiori
IS-61 - Approximation, learning and inference with positive-definite kernels Organizer: Bharath K. Sriperumbudur

8:30 | 10:30 Room Amalfi
IS-62 - Nonparametric variable selection Organizer: Adriano Zanin Zambom

8:30 | 10:30 Room Procida
IS-63 - Recent advances in functional time series Organizer: Matthew Logan Reimherr

10:30 | 11:00
Coffee break

11:00 | 12:00 Auditorium Tafuri
Peter Hall Session - Spurious correlation and its impact on estimation of ultrahigh dimensional nonparametric and semiparametric regression models Runze Li

12:00 | 13:00 Auditorium Tafuri
Special invited session - Bernstein-von Mises type results for misspecified nonregular ill-posed models Natalia Bochkina

12:00 | 13:00 Room Ravello
CS-27 - Functional data III

12:00 | 13:00 Room Furore
CS-28 - Dimension reduction techniques

12:00 | 13:00 Room Positano
CS-29 - Bootstrap methods

12:00 | 13:00 Room Procida
CS-30 - Nonparametric inference and estimation III

13:00 | 14:30
Lunch

14:30 | 16:30 Room Vietri
IS-64 - New development in semiparametric methods in microeconometrics and finance Organizer: Valentina Corradi

14:30 | 16:30 Room Ravello
IS-65 - Complex time series modelling Organizer: Qiwei Yao

14:30 | 16:30 Room Furore
IS-66 - Applied mathematics meets statistics and probability Organizer: Anirban Dasgupta

14:30 | 16:30 Room Positano
IS-67 - Non-standard Problems in modern goodness of fit theory Organizer: Estate Khmaladze

14:30 | 16:30 Room Maiori
IS-68 - Optimal transport for non parametric statistics Organizer: Jean-Michel Loubes

14:30 | 16:30 Room Procida
IS-69 - Various topics Organizer: Anton Schick

16:30 | 18:00 Grand Hotel Salerno - Roof Terrace
Closing & Farewell party
